Questions? Contact us!

- **Proofreading:** Checks for typos, formatting, and minor errors before publication. This service is ideal for the last step before submission to catch any error or typo that was missed.
- **Line Editing:** Focuses on style, clarity, tone, and flow. Besides grammar, punctuation, spelling, consistency, word choice, and general sentence-level flow, we will also pay attention to sentence and paragraph structures.
- **Developmental Editing:** Involves high-level revisions to the text. We will look at the "big picture" of the content, flow, and organization, in addition to anything covered in Line Editing. We will help you to refine your ideas and shape your narrative by providing you with details noticed in your draft.
